

A simple progressive side bet for Baccarat or Mini Baccarat!

Power 8's is a progressive side bet offered for Baccarat, which can be played in addition to an initial wager on either Player or Banker, by placing a bet on the associated flashing pad.

In Power 8's, players bet on the combination (suit) and frequency of 8's dealt, either as part of the initial 4 card deal or from the total of drawn cards representing a result in the main game. The three top progressive jackpots are shared equally between all those who placed a bet on the winning flashing pads.

Features

- New & exciting side bet for Baccarat/Mini Baccarat
- Easy for players and Dealers to learn
- Increase in House Advantage
- Exciting flashing wagering circles to attract bets
- Game speed is minimally impacted

Benefits

Perfect For GFL Bonusing

GFL Bonusing is a powerful floor-wide event and mystery progressive system for the live gaming space.

When combined with Power 8's, casino operators can choose to assign an event-based jackpot, which would award a player when a specified deal occurs - such as 4 x 8's in the initial deal - or they can choose to incorporate a mystery jackpot, which would be configured by the operator (using a random number generator) to award a randomly selected player for simply participating. Both options drive increased revenue and attract players with the advanced multicolour side bet technology.

Revitalising Traditional Baccarat

Baccarat has long since been one of the most popular casino table games in the world. With the new Power 8's side bet, casino operators can now capitalize on Baccarat's popularity by encouraging more wagers, which ultimately results in increased revenue.

Power 8's is sure to ignite excitement in both seasoned and new Baccarat players alike.

Simple, Fast & Fun!

One of Baccarat's best, and most appealing, features is its simplicity. Power 8's compliments this by only requiring the player to place an additional bet; there are no other moves for the player to carry out. The rest of the game is left up to the Dealer and the cards, making it easy for the player to focus on the thrill of the game.

Questions & Answers

How does the game speed compare to traditional Baccarat?

When compared to traditional Baccarat, there is little affect on the game speed.

Will the Game Hold % improve with Power 8's progressive?

Because of the increased interest in the large progressive jackpot, game hold % should increase.

Is the game easy to play?

Yes. Players find it quick and easy to learn.

Is the game easy to deal?

Yes. When dealt by casino Baccarat Dealers, the game is picked up immediately.

What is the house advantage of Power 8's progressive?

Since all eligible players split the jackpots evenly, the house edge will increase as the number of players increases.
